*The beautiful thing  
about learning is  
nobody can take it  
away from you.--  
B. B. King*

# Evening Learning Events

2<sup>nd</sup> Monday of Jan – April 2010

7:00-8:30 pm

## Jan 11 – Paper Fibers by Alan Button

*Various fibers, with differing properties, from a range of sources and geographies, can be used for paper. What does this mean for paper properties and the sustainability of fiber sources? Alan Button, from Buttonwood Consulting, is a PhD graduate from the Institute of Paper Chemistry.*

## Feb 8 – Fox River Water Quality by Erin Hanson

*Improving Fox River water quality will require work to reduce nutrients and sediment. A soon to issue report will set water quality goals and establish limits from various sources. Erin Hanson from Wisconsin DNR in Green Bay will discuss what tracking has been taking place, why it's important, and what it means for the future.*

## March 8 – Sustainability by Paul Linzmeyer

*Wisely using materials and processes to ensure sustainability of resources, as well as managing organizations in a landscape of inter-dependent systems and cycles, grows in importance, as does the world's population. Paul Linzmeyer, Innovative Sustainability for Organizations, will discuss the challenges, possibilities, and trends.*

## April 12 – Pop-Up Book Engineering by Shawn Sheehy

*Books are undoubtedly one of the most important uses of paper. To join in the celebration of the Fox Cities 3<sup>rd</sup> Annual Book Festival, Shawn Sheehy, a paper engineer and teacher in the world of limited-edition trade pop-up books will discuss and demonstrate his passion and skill. Shawn will be providing hands-on workshops Sun – Tues, 4/11-13, go to: [www.PaperDiscoveryCenter.org](http://www.PaperDiscoveryCenter.org) for more details.*
