## Evening Learning Events (continued)

### March 9 – Bio Fuels by Tim Donohue

*UW - Madison received the biggest grant in the school's history to work on bio-fuels, discover what it's all about. Timothy Donohue, principal investigator for the Great Lakes Bioenergy Research Center is a professor of bacteriology at the UW—Madison.*

### April 13 – Dard Hunter – The legacy of a paper artist, historian, and book-maker by Dard Hunter III

*The grandson of this talented artist, will share the story of Dard Hunter – his love for, knowledge of, and experience with paper. His publications and museum collection promote the significance of handmade paper as the origin of a global industry.*

Paper Discovery Center

HOME OF THE PAPER INDUSTRY INTERNATIONAL HALL OF FAME

The Paper Discovery Center is a museum / science center, mainly funded by individual contributions. We welcome the community to take advantage of these events, and all our learning opportunities. We request your support and participation, as we tell the story of applied science, technology, and innovation, using the example of the Paper Industry, which is integral to our local heritage.

- Free Admission—Donations accepted -
