Become a Volunteer

We are looking for students interested in volunteering to help in our paper making lab during the summer. Volunteers will:

- Greet visitors, take admission fees and gift shop purchase payments
- Help visitors make paper by hand in the PDC paper lab
- Help set up & take down summer science day activities
- When needed, assist with science activity explanations
- Prepare materials for the paper lab or craft activities
- Help clean exhibits and/or the paper lab when needed
- Help in Gift Store as needed.

Minimum age: 15

Training will be given for all responsibilities and a staff supervisor will

April 2014 has been declared Forestry and Paper Products Month in Wisconsin!

We are thrilled to announce that the Wisconsin Legislature has recognized the importance of paper, forestry and printing to our state's economy by passing **Senate Joint Resolution 82** naming April 2014 Forestry and Paper Products Month.

Wisconsin's paper industry is has been an important part of the fabric of Wisconsin for many generations and continues to be diverse and thriving in today's global market. We are especially proud of the fact that our papermakers have led the nation in paper manufacturing for more than 60 years. Declaring April 2014 "**Forestry and Paper Products Month**" recognizes the important role that forest and paper products play in our economy and our environment."

- Wisconsin's rich history of papermaking goes back to 1848, three months before Wisconsin became a state
- Wisconsin has led the nation in paper manufacturing for more than 60 years
- Wisconsin produces a greater diversity of paper products than any other state. It ranks first in the volume of paper manufactured and in the diversity of paper products produced nationwide
- Papermakers are good environmental stewards who actively support sustainable forestry and manufacture products using recovery fiber, making the industry leaders in recycling efforts and resulting in lower greenhouse gas emissions.

always be on-site to address questions.

Because of the training involved to fulfill the requirements of this position, we ask for a minimum commitment of 2 hours/week June - August. This is an ideal position for students who need community service hours, and have an interest in working with younger children.

For more information email [Kathleen](#) or call (920) 380-7491 [Volunteer Information](#)

We will be **Celebrating All Things Paper** throughout the month of April, but especially during Earth Week as we add crafts, activities and information about recycling, sustainable forests, and the many ways the Paper Industry is becoming one of the greenest industries around.

Giving Hope Campaign May 4 - 10

As part of Appleton Downtown, Inc.'s Giving Hope Campaign, the Paper Discovery Center will be donating 10% of the purchase price of all paper making kits sold between May 5 and May 10 to the Giving Hope Campaign. Make a cash donation and receive a handmade paper bloom.

Paper Legacy Foundation

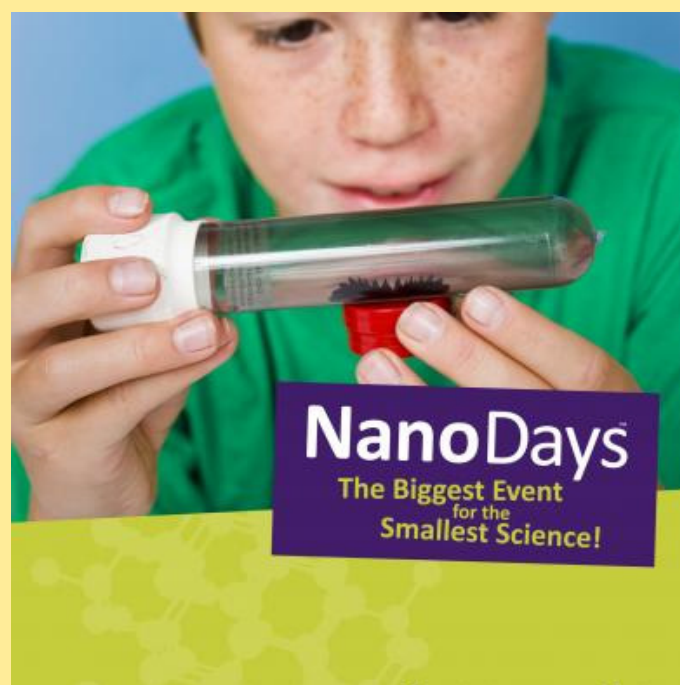

Honor a loved one in a long-lasting display of pride. Become a part of the **Paper Legacy Foundation Wall**. For more information, contact Kathleen at (920) 380-7491.

Join our Family & Friends Program

A Family and Friends membership supports programs at the Paper Discovery Center, as well as providing exciting benefits for you. You will have the satisfaction of knowing that you are supporting a valuable educational resource that celebrates paper. Visitors can learn and understand the paper industry - its past, present, and future - through a series of exhibits and activities.

For more information see our website

Nano Days

Nano Days will continue at the Paper Discovery Center through April 19. This is the biggest event for the smallest science! With a grant from the Nanoscale Informational Science Education Network (NISE Net), we are pleased to bring you hands-on activities every afternoon from 1 pm - 3 pm and presentations every Saturday at 1 pm showing you some of the latest applications of Nano Technology.

Nano is the science of the very small. It is the science of studying and making very tiny things. It is new technology and is a very large part of our society and our future. At the nanoscale, things behave in unexpected ways. For example, geckos can climb up walls and across ceilings, but there's no glue on the bottom of their feet! Instead, millions of tiny, nano-sized "hairs" form bonds with the wall. Come in and find out how and why this works.

Nano Days events combine fun hands-on activities with presentations on current research. Come participate in Nano Days at the Paper Discovery Center. We will have hands-on activities for visitors to explore from March 22nd until April 19 from 1:00 - 3:00 pm. During that time we will also be providing a short program every Saturday at 1:00

www.PaperDiscoveryCenter.org/donations-2/ or call (920) 380-7491.

pm. Programs and activities are included in regular museum admission.

Fun and new discoveries for all ages await you.

EARTH WEEK CELEBRATION April 21- 26

Come to the Paper Discovery Center to celebrate Earth Week! We have once again joined with other Businesses and Organizations throughout the Fox Valley for a week of Earth-Minded activities, special events and learning opportunities. The Paper Discovery Center has a week of earth day crafts, information on recycling and special Earth Week activities in the paper lab including recycling your homework and making seed paper to plant in your garden.

For a complete calendar of Earth Week events visit:
www.ecos-foxvalley.com

WISCONSIN MUSEUMS WEEK May 12 - 17

The Paper Discovery Center will be celebrating Wisconsin Museums Week from May 12 - 17. "Museum Collections Make Connections" will be this year's theme. Make your connection to the rich history of papermaking in the Fox Valley when we unveil our newly refreshed exhibit **Paper Making Memories - Voices from the Past** with photos and recollections of what it was like to work in a paper mill from the late 1800's through the 1960's. A special exhibit of rarely seen artifacts will also be on display. All included in the regular price of admission.
