- [20th Hall of Fame Induction](#)

Announcements

- **Summer Science Series starts June 16**
- **Six new Inductees will be added to the Paper Hall of Fame in October**
- **We are booking summer group visits - call now to book yours**

Summer is a great time to visit our Outdoor Learning Center

Remember, a visit to the Paper Discovery Center always includes our Outdoor Learning Center. Summer is a great

Teachers,

We had a lot of fun working with your students this year. We hope they learned and had fun while at the PDC. We look forward to seeing you again next year. If you have ideas for new programs, please let us know.

We also book groups during the summer, so if you are a summer school teacher or run a child care program, please consider us for a fun outing with hands-on discovery based learning.

PDC EDUCATION STAFF

Become a Summer Volunteer

We are looking for students interested in volunteering to help in our paper making lab during the summer. Volunteers will

- Greet visitors, take admission fees and gift shop purchase payments

time to learn about the environmental aspects of the paper industry. More than half of the paper in the world is made from recycled waste paper, and the rest is made from renewable resources. In the United States, paper companies manage and maintain more forests than the U.S. Forest Service. The PDC tells these stories and that of sustainable forestry. In our Outdoor Learning Center, you can visit a small paper company forest planted with many of the trees that are used for papermaking.

Paper Making Memories

Come see the new Paper Making Memories Exhibit. Hear the stories of the people who helped make build the paper industry in Wisconsin into a pillar of the Wisconsin economy. The personal stories of these men and women bring local history to life.

- Help visitors make paper by hand in the PDC paper lab
- Help set up & take down summer science day activities
- When needed, assist with science activity explanations
- Prepare materials for the paper lab or craft activities
- Help clean exhibits and/or the paper lab when needed
- Help in Gift Store as needed.

Minimum age: 15

Training will be given for all responsibilities and a supervisor will always be on-site to address questions.

Because of the training involved to fulfill the requirements of this position, we ask for a minimum commitment of 4 hours/week June - August. This is an ideal position for students who need community service hours, and have interest in working with younger children.

For more information email [Kathleen](#) or call (920) 380-7491 [Volunteer Information](#)

Please Donate your gently used laptops

The PDC is in need of three or four donated laptop computers. They must be new enough to run Windows 7 or higher, and Internet Explorer 9 or higher. Most of our staff computers currently run Windows XP and are not new enough to run the newer software. With upgrades, we will be able to apply for a grant from the Community Foundation to take our computing to the cloud.

Let the kids explore this summer...

Summer Science Series & Camp

SCHEDULE OF SUMMER SCIENCE CAMPS

Thursdays, 1-3pm

Ages 7-12

\$12 per child / \$10 for members

Enroll your child today...space is limited.

920.380.7491

July 24

August 21

July 24
Register by Thursday, July 17.
COLOR AND LIGHT CAMP

Come and explore color and light in more detail. Learn how we see colors and why things are the color they appear. Learn about the properties of light through lots of experiments.

August 21
Register by Thursday, August 14.
MAGNETISM CAMP

Which objects do magnets attract? What happens when a magnet meets an electric current? Discover the properties of magnets through art and hands-on activities.

SCHEDULE OF SUMMER SCIENCE SERIES

all week long

Ages 7-12

FREE with paid admission

June 16 - 28

OPTICAL ILLUSIONS SERIES

Can you always believe what you see? Optical illusions show how our eyes play tricks on us. Things are not always as they appear. Objects will seem to change size, switch colors, move and even disappear.

July 14 - 26

COLOR AND LIGHT SERIES

What makes white light? Why is the sky blue? Is black really black? Mix and separate colors, play with ultraviolet color-changing beads, and look at lights through special light-bending glasses.

August 11 - 23

MAGNETISM SERIES

What makes magnets stick to your refrigerator? Why do some items stick to a magnet and others do not? Can you make a magnet?

Paper Discovery Center

OUR SUMMER SCIENCE SERIES AND WORKSHOPS ARE SUPPORTED

WITH A GRANT FROM SCA

Paper Industry International Hall of Fame, Inc.

SAVE THE DATE
