

Open Monday through Saturday | 10 am - 4 pm | Adults \$5 | Seniors \$4 | Students \$3 | Family \$12

All Things Paper

March 2015

The Paper Discovery Center will be Celebrating **NANO DAYS** starting March 28 and continuing through April 18

The biggest event for the smallest science!

Learn what the nano-scale means and how nano-particles can change familiar products. We will have lots of hands-on activities and experiments that explore nano technology in a fun way for the entire family. All activities are included in regular admission and are available during PDC hours.

Nano Days are Coming Back

Nanoscale science, technology and engineering, is a new and exciting field that is becoming part of our society and future. Nano is all around us!

Come to the PDC and learn what nano is, how things at the nanoscale can behave in a surprising way, and how nano is used in food, medicine, science and technology. Visitors can explore nano materials such as graphene and polarizers, see how nano-technology is applied to everyday products like fabrics, food and even sandbox sand. You can even learn about some of the tools used by nano scientists.

Come join the wonder and fun during Nano Days at the Paper Discovery Center. We will have fun, hands-on activities for visitors to explore from **March 28 to April 18**. Programs and activities are included in the regular museum admission. (\$5 adults | \$4 seniors | \$3 children | \$12 families)

There will be new discoveries for all ages!

MEET OUR NEW STAFF MEMBERS!

TEACHERS, BOOK YOUR FIELD TRIPS NOW!

To see which days are available, visit the [Calendar](#) on our Website. We still have some openings for your spring field trips in April and May. Call to book now, or visit the [Teachers Page](#) for more information.

Wisconsin History Tour Appleton

Join the Wisconsin History Tour in Appleton at the History Museum at

The PDC is thrilled to announce the addition of three new staff members:

Jordan Peterson - Visitor Experience Associate

Jordan is a student at Lawrence University. You will find her at the PDC in the afternoons and on weekends. She will cheerfully assist you in the Paper Lab, or with our crafts and other activities.

Anne Marie Hendricks - Educator / Docent

Anne Marie has just joined our staff as an Educator and Docent. She will be working with School Groups, Scout Programs and walk in visitors. Anne Marie has recently returned to her hometown after ten years going to school and working on several AmeriCorp projects in Oregon.

Carol Coulliard - Seasonal Educator

Carol will be joining our education staff to work primarily with school groups. She has experience working in the New London School system and also at the New London Public Museum.

Please join us in welcoming Jordan, Anne-Marie and Carol to our staff.

the Castle. Special events from March 17 - March 20. The Wisconsin Historical Society will be offering four days of great, free, local history programming. Find out more: [History at the Castle](#)

Save the Date Papermaking 101 June 24, 2015

If you missed our first Papermaking 101 in February, you have another chance to attend this wonderful program on June 24, 2015. Please let us know if you would like to receive our mailings.

Award from Shopko Foundation

Mark Grasmick, Shopko Manager at Northland Mall presents a check to Lisa Weiner, Development Specialist for the Paper Discovery Center

The Paper Discovery Center received an award from the Shopko Foundation to support educational programming at the Paper Discovery Center. Thank you Shopko!

SUMMER SCIENCE FUN!

The Paper Discovery Center received a \$5,000 grant from SCA North America to support six weeks of Summer Science Fun for all ages. Come in and check out the different activities each week.

SCA is a leading global hygiene and forest products company that develops and produces sustainable personal care, tissue and forest products and has sales in about 100 countries under many strong brands, including the leading global brands TENA and Tork. SCA has approximately 930 employees in the Fox Cities, including 760 between its Menasha mill and Neenah converting facility and 170 at its Service Excellence Center in the town of Menasha. In addition to Wisconsin, SCA has U.S. operations in Alabama, Arizona, Kentucky, New York and Pennsylvania.

June 15 - June 27: The Science of YOU!

Taste, Touch and smell your way through science in a fun, interactive way for the family. On a scale from people-sized to nano-sized, learn about the ways your body connects you to the world around you.

July 13 - July 25: Science at the Beach

Is it too hot and humid outside to go to the beach? Not at the Paper Discovery Center! Come and learn about the physical and nano-scale science behind all your favorite beach activities. No swimsuits
